Antivirus & Antispyware

Browse the Internet with confidence thanks to proactive protection that means you don't have to worry — wherever you go.

Anti-Theft

Protects your laptop in the event of loss or theft, and even helps you find it. Track its location, monitor activity on it, or message the finder — from your my.eset.com account.

Anti-Phishing

Ensures you don't encounter fake websites, and helps you avoid losing your personal information.

Personal Firewall

Shields your personal data when you use your laptop to connect via public Wi-Fi hotspots.

Parental Control

Make sure your kids stay safe on the Internet. Block over 20 website categories, or create your own, and password-protect your settings to prevent changes.

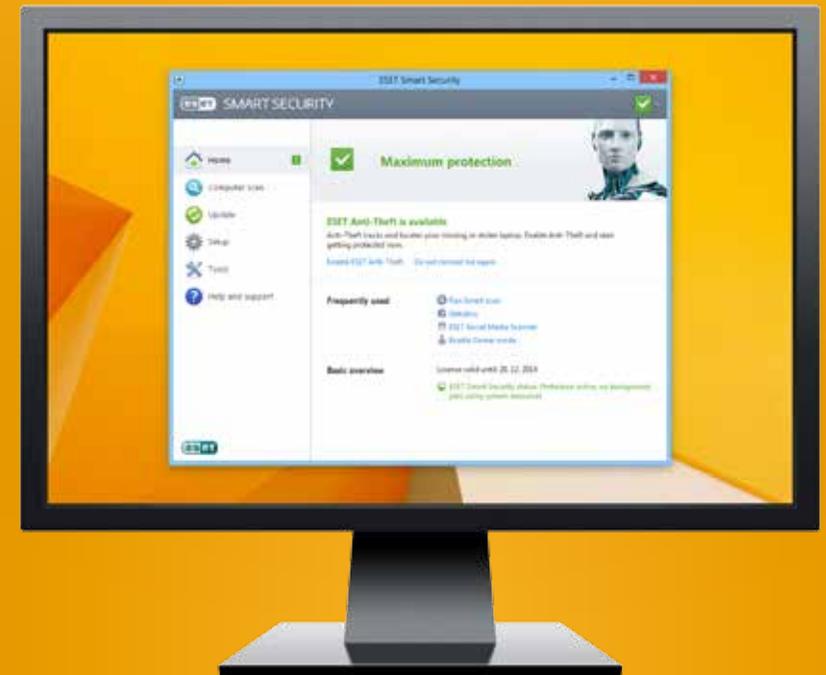

Social Media Scanner

Stay secure on Facebook and Twitter by avoiding malicious links. Do you know who can see your information and which apps can access it? We make it easy to reclaim your privacy.

You can also rely on our additional security features: Vulnerability Shield, Advanced Memory Scanner and Exploit Blocker.

"I use ESET Internet Security, and I like the way I can control the way it behaves. Leave it to work alone or interact with the program to have some control yourself if you like it like that. Either way it does the job."

Antivirus

Happily connect, shop and download apps on your tablet or smartphone — we'll keep you protected.

Proactive Anti-Theft

If Anti-Theft detects behavior that is out of the ordinary, it locks your device and takes camera snapshots. You can then access them via my.eset.com. If you find that your device is missing, you can locate and track it on a map — easily from the same

portal. What's more, contact the finder with a message or wipe the phone's contents clean.

Anti-Phishing

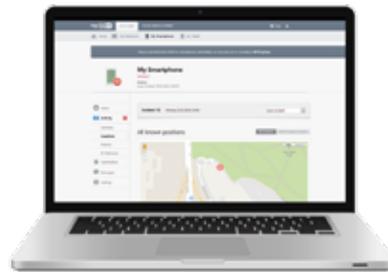

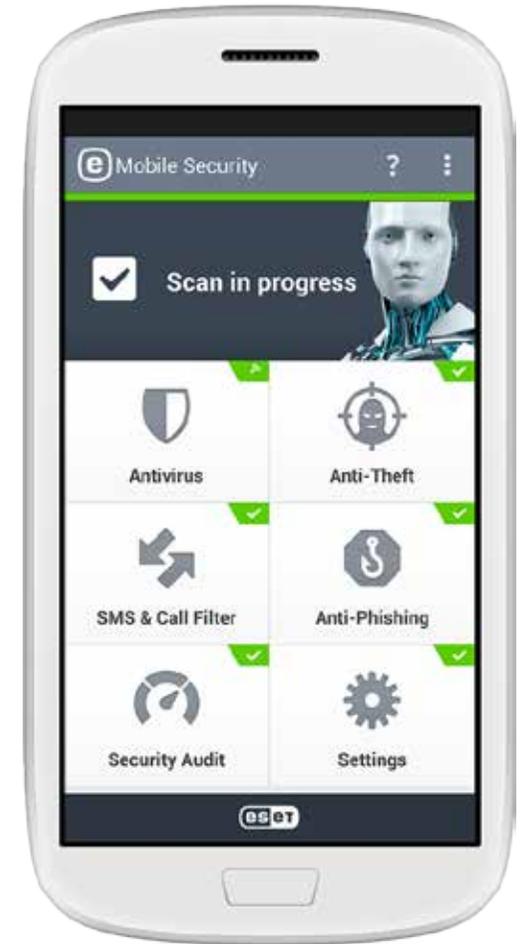

Protects your personal information against fake websites, shielding your usernames, passwords and banking details against abuse.

SMS & Call Filter

Define who can contact you and when. Create a blacklist to block nuisance calls.

Usability and Tablet Support

ESET Mobile Security's sleek design works seamlessly on Android tablets, putting all functions right at your fingertips. Regular updates mean you always have the latest — and best — level of protection.

1 Proactive Anti-Theft is turned on to track your device if it's lost.

2 Marks your device as missing to locate and track it from my.eset.com

3 Locks your device: automatically triggered by suspicious behavior

People who enjoy our products

"Love the mobile app after using it for only a few days now. Clean, light, minimal, I am looking forward to future releases. :-)"

Jack, ESET Mobile Security customer, New Zealand

"This app is great and easy to understand, also has a nice interface. Good work ESET!"

Akira, ESET Mobile Security customer, Thailand

"I use ESET Internet Security, and I like the way I can control the way it behaves. Leave it to work alone or interact with the program to have some control yourself if you like it like that. Either way it does the job."

Rupert J. C., ESET Smart Security customer, Ireland

"ESET is the best because it is so light and you don't even know it's there, it just ticks away in the background doing it's job with no annoying emails, notifications and update signs, not to mention all the warnings from infected apps."

Venus, ESET user, Australia

"Powerfull, light enough, stable, GUI I like. My girlfriend is using ESET product and she also likes it!"

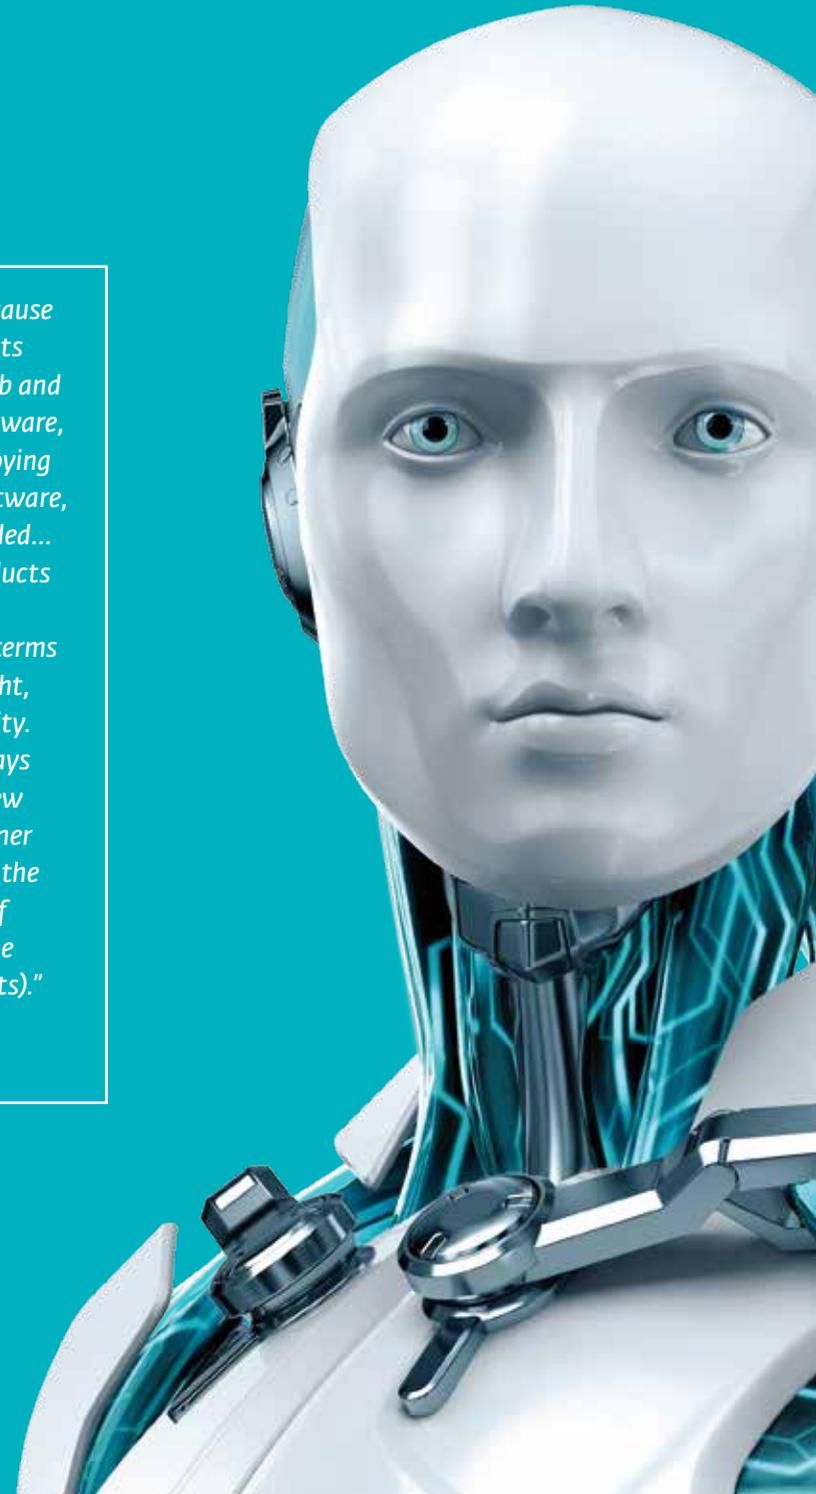

Martin B., ESET user, Poland

"GREAT anti-virus! Lightweight, great scanner, works great! I recommend it to all my customers!"

Justin W., ESET customer, USA

"I like ESET products because they are only AV products that actually do their job and that is dealing with malware, nothing more... no annoying toolbars, add-ons, bloatware, fake optimization included... I have tested many products in the past and nothing comes close to ESET in terms of protection, lightweight, consistency and reliability. ESET technology is always improving... I like the new advanced memory scanner and exploit protection - the most important parts of protection shields for the future (especially exploits)."

Almir H., ESET customer, Bosnia and Herzegovina
